SOFT SKILL SET

- **Leadership Skills / Teamwork**: Experienced working in teams of up to 6 people with an Agile approach during Hackathons. When there is a project to deliver, organization and understanding everybody's best skills is the key;

- **Communication Skills**: I have a natural attitude towards public relations, I like to listen carefully people I don't know in order to understand their personalities and perspective so I can build a successful communication;

- **Problem-Solving Skills**: Creative mind who never gives up in front of critical situations. Whenever there is a mistake or misunderstanding I love to talk about it with my colleagues and sort it out the best way possible;

- **Work Ethic**: I am a very dedicated worker and I am used to working in fast-paced workplaces with strict deadlines;

- **Flexibility / Adaptability**: Professionally and in my private life I have been facing great challenges which required me to adapt to new situations and upskill myself.
